Soldering-Tape (adhesive back)

Part-Number S-131005	Price CHF 25.--
----------------------	-----------------

Solder-Tape is heat resistant (but will burn under direct flame) and can be used to bind parts together while soldering. As with the adhesive backing you may tape a part to another. Works fine in the soft-solder range. It doesn't leave the marks like wire and is more flexible than clamping.
